REPORTS
OF
CITY OFFICERS.

RECEIVED

CITY OF PHOENIX

CONTROLLER'S REPORT.

To the Select and Common Councils, City of Pittsburgh:

CITY CONTROLLER'S OFFICE,
Pittsburgh, January 30, 1869.

GENTLEMEN :—Herewith you will receive the reports of the revenue collectors of the various departments, showing the amount of revenue paid into the city treasury; the Controller's statement of the condition of the appropriations; a statement of the railroad bonds, compromised and exchanged, and the amount of municipal bonds paid and retired during the year, and the treasurer's report, showing the receipts and disbursements during the fiscal year ending January 31, 1869, and the balance on hand.

Treasury.—Amount in treasury Feb. 1, 1868, \$230,300.70. The whole amount of revenue by him received, \$669,601.61, and the total receipts \$919,601.61, embracing the water extension loan. The revenue exceeds the estimates by \$41,311.61. The disbursements amount to \$870,882.15, showing a balance of \$279,020.31. The receipts will be light until the first of June, and this large balance will be very materially reduced between this time and the 1st of April, so that in taking out the balance in Appropriation No. 1, \$94,654.76, which cannot be diverted from the payment of interest and the compromising of the railroad bonds now outstanding, there will not be too much money on hand to work the city finances with ease and make her credit equal to any emergency.

Diamond Markets.—Falls short of the estimate by \$673.48.

Monongahela Wharf.—Exceeds the estimate by \$273.35, while the Allegheny falls behind \$1,449.94, so that the net proceeds, after paying the salary of the wharfmaster, and ordinary expenses, will hardly exceed \$200.00. If the revenue fails to

improve it, it will be time to consider the propriety of renting to private individuals, so that so valuable a franchise will yield reasonable returns to the city.

City Gauger.—Falls short \$3,284.67, and only pays the pitiful sum of \$1,715.33; considering that over one million barrels of oil are brought to the city annually, there appears to be a leakage somewhere so far as revenue to the city is concerned.

Salt Inspector.—Although estimated, does not appear as yielding anything, and it would be as well to abolish the office and prevent its appearing hereafter.

Bark Measurer.—Although he pays nothing in, admits the collection of between two and three hundred dollars, out of which the city is entitled to say \$50 or \$60. This he declines to pay over, from the fact that the amount he made did not justify him in measuring. The office should be abolished.

Your attention is called to such small abuses, so that they may be corrected, and people not be taxed through the agency of the city for the benefit of private individuals.

Municipal Bonds.—Bonds amounting to \$47,500 have been paid off from the municipal sinking fund during the year, leaving outstanding, \$699,300.

Railroad Bonds Compromised.—Thirty thousand dollars of these bonds were compromised during the year, and the accompanying table gives in detail a full statement.

Water Extension Loan.—\$250,000.00 of water extension loan 7 per cent. bonds were sold at par during the year.

Commissioner's Sinking Fund.—Amount now in the fund, \$142,040, consisting of 118 5 per cent. bonds of \$1,000 each, 24 4 per cent. bonds of \$1,000 each, and cash, \$40.

Hailman Bequest.—Amount, \$12,000. The interest of this sum is to be applied in the winter of each year for the relief of the poor and destitute.

Commission for the erection of a City Hall.—The amount paid is as follows, viz:

Payments on ground	\$ 75,000 00
“ “ excavation.....	2,362 50
“ “ constructing foundation.....	22,982 00
“ “ publishing in papers.....	428 97
“ “ sundry items.....	279 68
“ “ Architect.....	1,000 00

Total\$102,053 15
Sum now in the hands of the city treasurer, \$31,733.97.

Conclusion.—Having thus called your attention to a few leading items, and presented full and accurate statements in detail of the finances of the departments, you will be enabled to form

a correct judgment as to the resources and outlays necessary to carry on the city government, and the workings of the sinking fund for the extinguishment of her debt. Considering the city has largely increased her boundaries and sphere of usefulness, and carried on much more extensive operations than heretofore, the year just ended may be considered most prosperous.

Her financial affairs are in such fortunate condition that she is fortified in every direction by the money on hand, the commissioners' sinking fund, and the three mill interest sinking fund, so that her exhibit is better than it has been since the unfortunate heresy of repudiation seized the public mind that proved so disastrous to city interests, and nothing but a reckless course of extravagance or mismanagement can prevent her from successfully overcoming all financial embarrassments.

Respectfully submitted,

THOMAS STEEL, *City Controller.*

REPORT

Of the Superintendent of Markets for the fiscal year ending January 31st, 1868.

OFFICE OF SUP'T OF MARKETS, }
Pittsburgh, Jan. 29, 1869.

To the Market Committee:

In making my report, I again call your attention to the necessity of another market house, in some suitable place, for the accommodation of the producer as well as the consumer. Producers are turned away for the want of room. Another market house, farther out in the city, would certainly be of great benefit to all. The butchers that now occupy shops would go to it, and the farmer that, under existing circumstances, is compelled to peddle his produce through the streets, would go to it. They will be accommodated—so will the citizens. Your meat and vegetables will be cheaper, and the city will increase in revenue. The amount of fresh meat alone, sold in this market in one year, is about ten million pounds. From this the city derives a revenue of about twelve thousand dollars. Below will be found my report of the amount collected.

Respectfully submitted,

SAMUEL KILGORE,

Sup't of Markets.

ANNUAL REPORT OF STREET COMMITTEE

For the year ending December 31, 1868.

To the Select and Common Councils of the city of Pittsburgh :

GENTLEMEN :—The approach of the new year brings with it the duties of an annual report from your committee on streets, setting forth their operations during the year now closing, and in our report we would respectfully beg leave to call your attention to the great and rapidly increasing amount of street improvement going on in our city. The items of grading, paving and curbing new streets has increased in an unprecedented ratio during the past two years, which has consequently imposed a great amount of work on your committee, and in all cases claiming their attention they have endeavored to the best of their ability to act in a fair and impartial manner, looking to the future welfare of our city, yet guarding with a jealous eye the interests of its citizens. The year now closing has been one of unusual activity in this branch of city improvement, as the following exhibit of work done during the past four years will show, viz :

1865	Grading, paving and curbing.....	\$ 80,171 88
1866	“ “ “	50,271 09
1867	“ “ “	107,762 86
1868	“ “ “	193,630 44

It will be seen by inspecting the above statement that the amount of street improvement this year is over two and one-fourth times that of 1865, and nearly four times that of 1866.

This great increase of work has necessarily added largely to the duties of our city engineer and street commissioners, and it affords us great pleasure to say that these officers have discharged their duties fearlessly and conscientiously to the best interests of all parties, and we would suggest that the term of office for these officers be extended, instead of electing them annually. We think a short term of one year does not work advantageously to the interests of the city, and would therefore recommend that the city engineer be elected for a period of three years, and the street commissioners for a period of two years.

We would also add a word in commendation of our city contractors, who, in our opinion, have done their best to render satisfaction to all parties, and who have, with few exceptions, cheerfully complied with directions from your committee and the officers of the city.

We have several matters before us upon which we propose to ask for changes and suggest improvements, but think the better time would be upon the assembling of the next councils.

C. H. Gohan,	do	do 276, M'ch T., 1867
The City vs. The Penn'a R. R. Co.,		do 174, M'ch T., 1867

The case of Cassidy was a suit for bounty under the Act of Assembly of May 1, 1866, and though it was only for the sum of \$300, it was a very important case, as it was intended to test the validity of the Act of Assembly, and the liability of the city under it amounts to over \$100,000 00. It was argued before the Supreme Court in Philadelphia, January 15, 1868, and subsequently judgment was given in favor of the city. The City is thereby relieved from all liability under that Act.

The cases of Gallaher and Gohan were of the same character, and are determined by the decision in Cassidy's case.

The case of Finch vs. The City was tried in the District Court during last Spring. The claim was for balance of the contract price for work done in grading and paving Smith Street in 1865. The defence made by the City was that the Regulator estimated more than the amount of grading actually done and that the work was not done in accordance with the contract. The jury found against the City the sum of \$4,108 34.

The Finance Committee, under authority from Councils, have authorized the Treasurer to receive from the parties assured the amount of the original assessments, without interest, in full of claims against them, which will amount alone to \$3,200 00. The balance of the judgment must be paid by

the City. The other cases mentioned have not yet been tried.

During the year a suit was brought against the City by Hageman & Snyder, for a balance claimed to be due for coal furnished to the Water Works. It is alleged that the amount charged was not delivered by the plaintiffs, and that the deficiency is more than the balance claimed by them. The case will not be tried before spring.

In the year 1852 Councils surrendered to the Penn'a R. R. Co. 8th Street and Plum Alley, for the distance of 100 feet westwardly from Grant Street, upon certain conditions contained in an ordinance, passed Sept. 27, 1852; one of which was that the said Company should remove the buildings and surrender to the city control of the triangular lot, bounded by 8th, Grant and Liberty Streets. During this year the Company took possession of the lot and assumed entire control of it by fencing it in and using it as a metal yard. Under the direction of the Committee on city property, I filed a bill in equity against the Company to restrain them from so using it, and also to restrain them from the use of 8th Street and Plum Alley, on the ground that they have violated all the conditions upon which they were vacated. The Company claim that the Councils had no power to impose conditions, and having consented to the vacation, the conditions are void, and they have the right to use the property as they please. I think the Company is bound by the conditions imposed, and will have the question determined as soon as practicable.

All the judgments recovered in suits brought upon coupons of Rail Road bonds during the year 1867, except that of James J. Morgan, have been paid. The Finance Committee have arranged for the settlement of the judgment of Morgan, and a compromise of the bond held by him. During the year suits have been brought upon coupons by the following named parties :

Thomas J. McKaig, ...	No. 13, May, 1868, ...	\$ 1,603 70
Josiah B. Evans, ...	No. 16, May, 1868, ...	2,498 40
George L. Ashmead, ...	No. 14, May, 1868, ...	953 35
C. Moran, ...	No. 3, Nov., 1868, ...	3,060 00
Winslow L. Souther, ...	No. 2, May, 1868, ...	961 20
The Nat. E. Bank of Phila., ...	No. 259, Jan., 1868, ...	355 00

All the cases except that of Moran were tried and judgment entered against the city for the amounts mentioned above. The case of Moran was brought upon coupons of bonds which appeared to have been in the possession of Oclucks & Co. Suit having been brought by them on coupons of the same bonds in 1861 and 1862. In settling the cases brought by them,

Oelucks & Co. agreed to compromise the bonds also. Believing that Moran is bound by this agreement, I made this defence to his suit. The case was continued at the instance of the Plaintiff's attorney, and will not be tried until May next.

The Commonwealth vs. W. W. Wallace, in the Court of Quarter Sessions, was a prosecution for maintaining a public nuisance in Cherry Alley, by keeping thereon marble and other material connected with his manufactory. He entered a plea of guilty and was sentenced to pay the costs and abate the nuisance. Another prosecution has since been commenced against him for the same offence.

The Commonwealth vs. Wm. Smith, also in the Court of Quarter Sessions, was a prosecution for maintaining a public nuisance on Spruce Alley, which consisted in buildings erected thereon in connection with his foundry. The case was tried and the defence claimed that the alley had been vacated. A special verdict was taken subject to the opinion of the court, upon the legal question raised, viz :—Whether the consent of councils had been given as required by the Act of Assembly. The Court subsequently decided against the defendant and sentenced him to abate the nuisance, but before the time allowed by the Court had expired Councils passed a resolution giving them assent to the vacation, and no further proceeding have since been had in the matter.

There has been a number of suits brought by several of the City Officers against persons for violation of City Ordinances, but as none of them are of importance or matter of public interest, I do not deem it necessary to mention them specially. A large number of suits have been brought for the collection of claims for grading and paving assessment, and assessments for opening streets. The great majority of these claims have been settled, and I need only mention those which are contested. The case of the City vs. Zug, which was pending at the time of my last report has been tried. The claim was for grading and paving Walnut Street. The defence alleged that the work was not done in accordance with the Ordinance of the City, and was very imperfect. The jury found in favor of the City for the full amount of the claim, which has since been paid by Mr. Zug.

The case of the City vs. Faas for paving a side-walk upon Henry street, was compromised under the direction of Councils. There was an old claim against Mr. Faas for paving the same sidewalk in 1865. He alleged that the second paving was made necessary by the neglect of the Street Commissioner to repair the street, and it was thought just to exonerate him

from the payment of the last claim if he paid the first. This he did and the last suit was discontinued.

The only cases brought during the year, in which defence has been made, are the cases of Wm. Devore and Wm. Ward, for the construction of a sewer in Virgin Alley, in which they made defence that their property is not benefitted. William Ward for sidewalk on Logan Street, and James Harrison for sidewalk on Webster street, in which they allege that the contract was not made according to law, and that they were charged more than the cost of the work. Samuel M. Kier for grading and paving Second street, on the ground that he is improperly charged with grading and paving the sidewalk on the opposite side of the street from his property, the same having been paved with cobble stone as part of the cart-way. The Penn'a R. R. Co. for grading and paving Liberty street, in which case they raise the question that the Company is not liable to assessment upon property used for depots, &c.

None of the above mentioned cases have been decided.

In addition to the liens filed for grading and paving and street opening claims, I have brought suit upon claims for grading and paving in the Borough of Lawrenceville, before its consolidation with the City. The claims were placed in the hands of the City Treasurer immediately after consolidation, and were a short time since given to me for collection. I know of no defence to any of them except one against Thos. Howard, Esq., which he states to be for the making of a water table on the Greensburgh and Pittsburgh Pike, and claims is not the proper subject of assessment.

During the year I have made the following collections :

Bedford Street and Shingiss Street were opened during the year 1867, and the amount collected on those streets were for some small assessments which had not been paid but were advanced by me to prevent delay.

Webster street was widened between High and Tunnell, by the removal of a house which extended into the sidewalk.

Gibbon Street was also widened by the removal of a house at the corner of Magee street. All this matter had been delayed for a long time by exceptions filed by parties interested

and which were pending at the time of my last report. At the same time Wylie and Duncan and Webster and Roberts Streets were pending in court upon exception. In each of these cases a large amount of testimony was taken and the questions were finally disposed of in May last. Nearly the whole amount of assessment has been collected and I have paid out the money to the parties entitled to it, commencing in each case at the lower end of the street. These streets will be ready for opening as soon as the weather will permit the improvements to be made. In the case of Hatfield exceptions were filed by Mr. Duff, and in the case of Diamond Street exceptions were filed by A. G. Cabbage. Testimony has been taken on both sides in these cases, but they have not yet been returned to court. In the case of Forbes Street proceedings are still pending the evidence not being yet closed.

Roberts Street has lately been placed in my hand. There is still about \$400 to collect on it, which will be collected in time to open the street before Spring.

Larimer Avenue has also been located and the assessment made. The time allowed for payment has not yet expired and no collection have been made on account of it. It will undoubtedly be ready to open before any work can be done on it.

A very large proportion of the money collected by me was paid by the parties before suit and without any expense to them. I endeavor to give notice to all parties before bringing suit, but I am not authorized to employ any person for that purpose. I will submit to the committee on digest an ordinance authorizing personal notice to be given to parties assessed whenever practicable. An ordinance was passed authorizing the Treasurer to give such notice of claims for grading and paving streets which has tended well.

Before the consolidation of Lawrenceville with the City, suit was brought by A. J. Marks, at No. 382 Nov. T., 1867, upon a bounty certificate given by the Borough. The case was tried in April last and judgment entered against the Borough for the sum of \$366, being the sum of \$300 with interest from the date of the certificate. This amount was included by the commissioners in the separate debt of Lawrenceville. By the Act of April 6, 1867, known as the Consolidation Act, it was provided that Commissioners should be appointed by the District Court to ascertain the separate indebtedness of the several corporations included within the city or consolidated. Under instructions from the Finance Committee I presented a petition at No. 105 April T., 1868, and the Court appointed D. N. White, Alex. Gordon and John

Walker, jr., Esq., commissioners for that purpose, who made report of the proceedings, which was duly approved, August 8, 1868. An Ordinance has since been passed by Councils assuming the liabilities of the several corporations, as ascertained and fixed by said commissioners, and taking control of all the property belonging to them.

William Wade, Wm. Dilworth, jr., and Thomas M. Howe, were appointed by the same Act as appraisers, to value all roads and bridges within the limits of the City, which claimed the right to take tolls. Mr. Howe declined to act and Alex. Gordon, Esq., was appointed in his place by the District Court as provided in said Act. They performed the duty required of them, and made a report of their proceedings to Councils, which was accepted and filed. By resolution of Sept. 30th, 1868, the Finance Committee was directed to negotiate with the several road-companies for a relinquishment of their rights. An agreement was made with the Greensburgh & Pittsburgh Turnpike Company, to transfer the road within the city limits to the city, and for the sum of \$5000, payable August 1, 1869. The agreement has been signed and the toll gate thrown open in accordance with the contract.

Respectfully submitted,

J. F. SLAGLE,

City Attorney.
